About RougeCoin

RougeCoin is building a robust Web3 Social Network dApp with NFT Profiles that can be traded like a token. User engagement is also rewarded in XRGE! "RouGee" Social Network is re-shaping the way social media works and turning content into a Web3 currency exchange. RougeChain will be the layer 1 solution.
Get Paid and Educate

Promote mainstream use of cryptocurrency, crypto-assets, and new age blockchain technology by using RouGee! Everyone will want to know what the newest social platform technologies are all about!

02.

Projects

Promote your project using your personal NFT Profile Page. Your profile is an NFT!
01.

Awards

The top users with real engagements will earn XRGE and valuble NFT rewards.
